**RE: Notice of Public Meeting for Almonte BESS**

To whom it may concern,

In response to Ontario's Independent Electricity System Operator ("IESO") Long-Term Capacity Procurement, Almonte BESS Limited Partnership is proposing to develop the Almonte BESS Project, a lithium-ion Battery Energy Storage System (BESS) in the Municipality of Mississippi Mills.

The proposed Almonte BESS Project would be located at County Road 29, Mississippi Mills, ON, K0A 1A0, for up to 4.999 Mega-Watt (MW), providing much needed electricity system reliability to Ontario.

Almonte BESS Limited Partnership is a special purpose entity created by Compass Renewable Energy Consulting Inc. for the purpose of developing this Project. More details on the IESO's Long-Term Capacity Procurement is available online at: <https://www.ieso.ca/en/Sector-Participants/Resource-Acquisition-and-Contracts/Long-Term-RFP-and-Expedited-Process>

It is important to us that Almonte BESS ("Project") be successfully integrated and benefit the local community in the Municipality of Mississippi Mills. To accomplish this, we are seeking your feedback and engaging local Landowners, Municipalities, and Indigenous communities and would like to invite you to our first Public Community Meeting to discuss the proposed Project and how it would benefit your community and help fulfill Ontario's power needs:
