**RE: Notice of Change of E-LT1 Proponent**

To whom it may concern,

This notice has been issued to inform respected community members and other stakeholders that the Proponent responsible for the development of the Almonte BESS project has been changed from Almonte BESS Limited Partnership to Walker BESS 4 Limited Partnership.

During our first Public Community Meeting for Almonte BESS held on December 15, 2022, at the Almonte Civitan Club, the presentation had identified **Almonte BESS Limited Partnership** as the Proponent for the purpose of developing and proposing the Almonte BESS project for the Independent Electricity System Operator's (IESO) Expedited Long Term Procurement (E-LT1 RFP).

**Walker BESS 4 Limited Partnership** is now the Proponent that will develop and propose the Almonte BESS project for the IESO's E-LT1 RFP.

If you have additional questions, you may reach out to us at [info@almonteenergystorage.com](mailto:info@almonteenergystorage.com) to provide feedback and ask questions regarding the proposed Project. Additional project development materials are available at [www.almonteenergystorage.com](http://www.almonteenergystorage.com).

Sincerely,

Walker BESS 4 Limited Partnership
